1. QUICK ACCOUNT CHEATSHEET

The 1-Step Model

Speed is the priority. High targets, stricter limits.

- **Profit Target:** 10%
- **Daily Loss:** 3% (Equity/Balance based)
- **Max Loss:** 6% (Static)
- **Min Trading Days:** 3 Days
- **Master Restriction:** 10 Lots Limit per day (Funded stage only).

The 2-Step Model (Standard)

The balanced choice. Best for swing traders.

- **Phase 1 Target:** 8%
- **Phase 2 Target:** 5%
- **Daily Loss:** 5%
- **Max Loss:** 10% (Static)
- **Min Trading Days:** 3 Days
- **Master Restriction:** None. (Unlimited lots allowed).

The 2-Step Pro Model

For surgical traders. Lower targets, tighter risk.

- **Phase 1 Target:** 6%
- **Phase 2 Target:** 6%
- **Daily Loss:** 3%
- **Max Loss:** 6% (Static)
- **Min Trading Days:** 3 Days
- **Master Restriction:** None.

The 3-Step Model

The marathon. Prove consistency over time.

- **Targets:** 5% (Phase 1) / 5% (Phase 2) / 5% (Phase 3)
- **Daily Loss:** 5%
- **Max Loss:** 10% (Static)
- **Master Restriction:** 10 Lots Limit per day (Funded stage only).

The Zero Model (Instant Funding)

Skip the test. Start earning immediately.

- **Target:** None (Instant Payout eligibility)
- **Daily Loss:** 3%
- **Max Loss:** 5% (Trailing until 5% profit, then locks).
- **Restriction:** 15% Consistency Rule applies to all payouts.

2. LEVERAGE MASTER LIST

Leverage at FundingPips changes depending on your account model. Be careful—trading Gold on a 1-Step account has different margin requirements than on a 2-Step account.

Asset Class	2-Step (Standard & Pro)	3-Step	1-Step & Zero (Instant)
Forex	1:100	1:100	1:50
Metals (Gold)	1:30	1:30	1:20
Indices	1:20	1:20	1:20
Energies	1:10	1:10	1:10

Crypto	1:2	1:2	1:1
--------	-----	-----	-----

3. CONSISTENCY & REWARDS

FundingPips links your **payout speed** to your **consistency**. The faster you want your money, the more consistent you must be.

The "Consistency vs. Payout" Table

Payout Option	Profit Split	Consistency Rule	Applies To
Tuesday (Weekly)	60%	None*	2-Step / Pro / 3-Step
Bi-Weekly	80%	None*	2-Step / Pro / 3-Step
Monthly	100%	None*	2-Step / Pro / 3-Step
On-Demand	90%	35% Rule	Any eligible account
Zero (Instant)	Up to 95%	15% Rule	Zero Accounts Only

How to Calculate the Rules

The 15% Consistency Rule (Zero Accounts)

- **The Rule:** Your single best trading day cannot be more than **15%** of your total profit.
- **Example:** You make **\$1,000** total profit. Your best day cannot be more than **\$150**.
- **Fix:** If you hit a big trade, you must keep trading small sizes to increase your total profit until that big trade is diluted to 15%.

The 35% Consistency Rule (On-Demand Payouts)

- **The Rule:** If you want an "On-Demand" payout (skipping the wait), your best day cannot

be more than **35%** of your total profit.

- **Example:** You make **\$10,000** total. Your best day was **\$3,500**. You are safe. If your best day was \$4,000 (40%), you cannot withdraw On-Demand yet.

4. THE "DO NOT DO" LIST

Violating these will get your account flagged or breached.

1. **Arbitrage:** Latency or Hedge arbitrage is strictly banned.
2. **Cross-Account Hedging:** You cannot buy EURUSD on one account and sell it on another to lock in risk-free profit.
3. **1-Minute Scalping:** On the **Master Account**, trades closed in less than **1 minute** will have their **profits deducted** (losses will remain).
4. **IP Hopping:** Stick to one region. If you travel, use a dedicated VPS or notify support. Frequent IP changes between countries flag you for "Account Management."
5. **News Trading:**
 - **Allowed with restrictions:** On 1-Step, 2-Step, and 3-Step (Profits deducted if executed 2-5 mins before/after High Impact news, but no breach).
 - **BANNED:** On **Zero** accounts (Cannot open/close/hold 10 mins around news).

READY TO START?

If this handbook helped clarify the rules for you, we'd honestly appreciate you using our link. It's a small gesture that helps us keep producing these guides!
